Visitor management

Best-of-breed integrations

Protect your premises today and in the future

Your scalable visitor management system for an efficient check-in process using best-of-breed security and safety features. Our 100% touchless, secure, and compliant check-in will enable your safe return to work.

A touchless check-in

Make the check-in sequence touchless by accessing your premises using a unique QR code using your smartphone..

Compliant data management

Automatically delete sensitive data captured during the check-in process such as visitor health statement.

Remote registration

Screen visitors before they reach your premises with customizable questionnaires.

Share your health and safety instructions in advance

Ensure visitors are fully aware of new health and safety rules and regulations by sending guidelines, safety videos and agreements prior to their visit.

Soundproof phone booth

Modular meeting room

Create a workspace that adapts with your workforce

Now is the time to build a flexible office that meets the needs of your workforce. Our modular architectural solutions support diverse working styles and ensure a healthy, productive work environment.

Flexible

ROOM booths assemble on-site in less than an hour. They're easy to move around the office and into your next one.

Well Ventilated

Proprietary ventilation system replenishes air inside once every minute. That's 5-12 times more than an average conference room.

Safety Assured

ROOM booths meet the highest safety standards and are the first booth to be GREENGUARD Certified.

Easy to Clean

ROOM booths are easy to disinfect with readily available products. Booths can serve as a physical barrier within the workplace, offering protection against virus-carrying droplets.

Smart 360° video conferencing cameras

**Socially
distance
your
workplace.**

The Meeting Owl delivers a face-to-face meeting experience no matter where your team is located so you can keep everyone safe and productive as you return to work — whatever that may look like.

Immersive Video Conferencing

The Meeting Owl uses AI to see and hear everything in the meeting room and autoshift the camera to deliver a face-to-face hybrid meeting experience.

Easy Meeting Setup and Start

Outfit your meeting rooms for hybrid work with the all-in-one conference camera, speaker, and microphone that's easy to set up and manage.

Supports Your Meeting Rooms

The Meeting Owl Pro's 18-foot audio pickup range lets your team sit six feet apart in the conference room and still be seen and heard clearly.

Plug and Play

The Meeting Owl works with all of your favorite video conferencing software so you can connect your team virtually with ease.
